Subject: Fwd: Forterra Brick - TEC information related to Forterra's letters of Sep 26 & Nov 18, 2016

I think it is very important that during the City's Strategic Planning Process that Council look into other issues the Tyandaga Community face.

PLEASE ATTACH AS A SUBMISSISSION TO THE CITY'S STRATEGIC PLAN THE FOLLOWING SUBMISSION AND ITS ATTACHMENTS.

Respectfully
Michael S.Wilson

To: TEC Group <

Dear Neighbours,

Attached is a document prepared by TEC members in response to Forterra Brick's letters that were sent to the Westhaven Dr. and Sturbridge Dr. residents on September 26, 2016 and November 18, 2016. Samples of Forterra's letters are also attached.

The Forterra quarry development IS A REAL ISSUE FOR OUR COMMUNITY. It is important that we act to ensure that the planned deforestation of such a substantial area does not happen. We encourage all to participate in helping us to question and deal with Forterra's plans and to continue to voice your objections and concerns to the leaders in our City, Regional and Provincial governments.

Please contact TEC for more information. As always, any offers of assistance are greatly appreciated.

More activities are underway and information is forthcoming.

Sincerely
Tyandaga Environmental Coalition team
