Mayor City of Burlington, Councillors and Staff

Re: BAAP Draft

On behalf of the Burlington Age-Friendly Council (BAFC) I recommend the Burlington Active Aging as submitted by Mandy Newham to Burlington Mayor and Council.

The project's staff was diligent in surveying as many residents as possible. The document reflects all the information gathered. The time and efforts of the staff is truly greatly appreciated.

The only concern of BAFC is that this will be a living document that is updated every two years to be appropriate. Due to the increasing demographics of seniors within

Burlington over the next years. It is the responsibility of the Present Council to present to FUTURE Councils particularly relevant to have future Councils update. After the cost and staff diligence it would be a good for Sustainability.

Burlington Age-Friendly Council recommends this Burlington Active Aging Plan to proceed and shared with future Councils.

Thank you all. God Bless!

Joan Gallagher-Bell Past Chair of BAFC, on behalf of BAFC
