## Official Plan - Responses to Heritage Burlington Comments

Submission	Name/Company/	OP Section	Stakeholder Comments	Staff Response
Date	Organization			
16-Jul-17	Heritage Burlington	3.5 preamble	Suggest adding the wording " archaeological resources, <b>many of</b> <b>which are privately owned</b> and are located" and also, replace irreplaceable with important.	Preamble modified to acknowledge private ownership. The word "irreplaceable" has been maintained to acknowledge that cultural heritage resources are lost forever if the City permits them to be removed.
16-Jul-17	Heritage Burlington	3.5.1 b)	Like the idea of the objectives but less heavy handedHB is not in favour of stewardship or custodial language which deems people are not "owners".	Objective modified. The word stewardship is maintained for consistency with natural heritage policies.
16-Jul-17	Heritage Burlington	3.5.1 d)	Reject the sentiment that this could be done at all costs to the Burlington taxpayer or worse the home owner. Recommend adding language such as "To minimize, wherever economically feasible, the demolition, destruction".	Objective maintained. The policy is worded to allow flexibility by using the word "minimize" rather than "prohibit".
16-Jul-17	Heritage Burlington	3.5.1 f)		Objective modified. Wording revised to reflect that the heritage character of an area must be defined through study.
16-Jul-17	Heritage Burlington	3.5.1 h)	endorse this thinking.	Objective modified. (1) Definition of "cultural heritage resources" in Ch. 13 has been modified to match the definition in the Growth Plan This definition resolves the question of significance. (2) Objective simplified by removing redundant language that already appears in definition of cultural heritage landscapes. (3) Use of the word "valued" in policy refers to a range of values including cultural, historical, design, social, and economic.
16-Jul-17	Heritage Burlington	3.5.1 k)	Need to be clear that not all cultural heritage resources are City ownedthere is a distinction that needs to continue to be appreciated.	Objective modified to provide the requested clarity.
29-Jun-17	Roger Goulet, PERL	3.5.2.1	Does this OP policy include the possibility of reviving the 'Rural Cultural Landscape Conservation Designation' for the Mount Nemo Plateau? If not, why not?	Comment noted. Policies do not preclude designation of the Mount Nemo Plateau. Section 3.5.2.5.1 provides guidance.

16-Jul-17	Heritage Burlington	3.5.2.1	Heritage Burlington, Council and Staff have dialed back the rhetoric that once characterized heritage exchanges, demonstrated clear respect for property owners and expanded our incentive program. The policies related to Cultural Heritage Resources must continue to build on the positive and constructive relationship that we have established over the past few years. Going forward, it will be imperative that the policies in the OP provide direction to Council and Staff to ensure we maintain our "carrot not stick approach" and a development "tool kit" comprised of both financial and non- financial options that would permit designation, where necessary and at the same time, not penalize the owner(s) of the property.	Comment noted.
16-Jul-17	Heritage Burlington	3.5.2.1	Suggest adding: a) The City shall recognize the word and spirit of the Council approved 2012 report" NEW APPROACH TO CONSERVING BURLINGTON'S HERITAGE".	Policy maintained. Reference to this of Official Plan.
16-Jul-17	Heritage Burlington	3.5.2.1	Suggest adding: b) The City shall acknowledge and adhere to the principle that the conservation of privately-owned cultural resources may be accomplished with the assistance of the community at large, not solely at the cost of the individual property owner.	Policy maintained. Section 3.5.2.1 refeature available to support owners.
16-Jul-17	Heritage Burlington	3.5.2.1 a)	As mentioned above, it is important to distinguish between what is City owned what is not. Specific wording recommended in comments.	Policy modified to provide the reques
16-Jul-17	Heritage Burlington	3.5.2.1 c)	Omission of cemeteries. Historic cemeteries are equally valuable. Specific wording recommended in comments.	Policy modified to use "should" instea a cemetery is a type of cultural herita Chapter 13.
16-Jul-17	Heritage Burlington	3.5.2.1 d)	What context would the City have non-government funding? Also, important to emphasize the use of both financial and non-financial tools.	Policy modified to refer to a wide ran municipality. Official Plan does not ne sources of funding. The policy as pro
16-Jul-17	Heritage Burlington	3.5.2.1 e)	Standards are already mentioned and limit us. For example, our tax rebate program is an initiative but not a standard per say. Specific wording changes recommended in comments.	Policy maintained. The Standards and conservation of cultural heritage reso to the tax rebate and other funding ir
