COMMENTS:

- This building is being put up approximately 10-15 meters from existing front doors (privacy, intrusive)
- Will add additional traffic to an already very congested area. - I have witnessed ambulances not being able to get through.
- Due to the special circumstances of the Shoreacres land, a special exemption should be given to developer in regards to intensification urban planning law
- North facing balconies on proposed building would impede privacy of existing units of 4045 uppermiddle Rd.
