

## St. Luke's Precinct

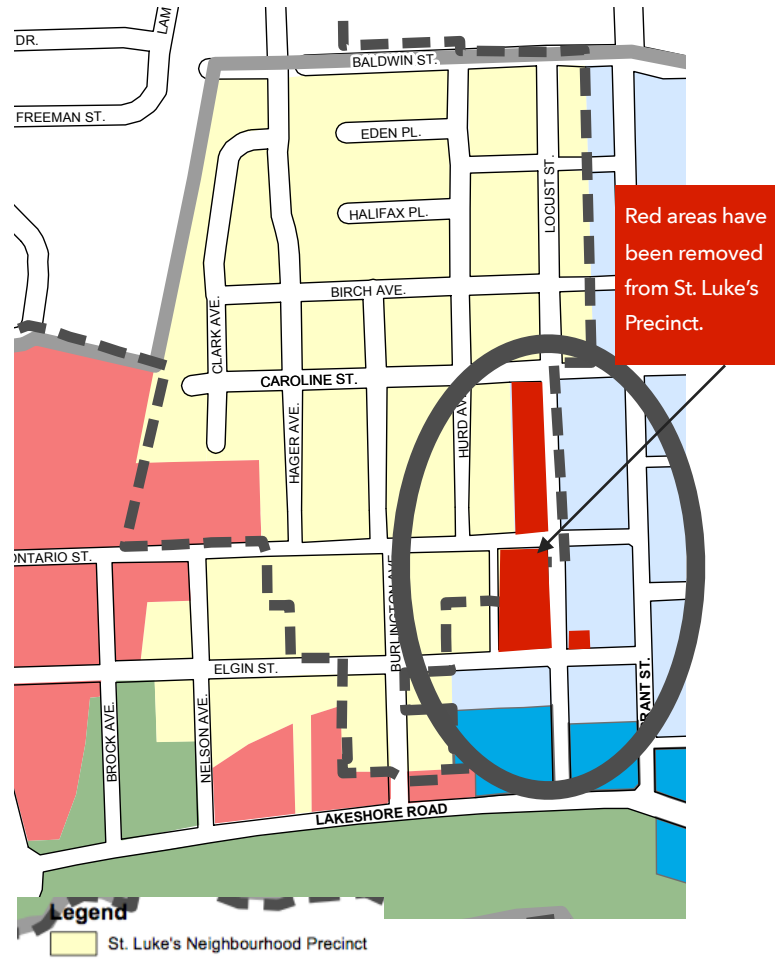

# Don't lose your neighbourhood!

### Your boundaries are shrinking

This map shows areas where the St. Luke's boundaries were changed without public notice; the red blocks were included in the previous St. Luke's boundary; these blocks have since been removed.

### Your neighbourhood was protected...

St. Luke's and Emerald Precincts are recognized by the Province of Ontario and Burlington as culturally significant. It is a unique community of zoned single detached homes. This recognition by the city meant that townhouses, semi-detached homes, duplexes or apartment buildings and high-rises were not permitted as they would disrupt the unique cultural make-up of what currently exists. [The New Official Plan will change this!](#)

## Please tell your City Councillors what you think

Fill in this petition, email or drop it off to your city councillor at City Hall before Tuesday April 24

I am opposed to the New Official Plan. I believe that the goals for intensification should be set, so that we do not over intensify our community.

- **Remove Semi- Detach Development**
- **Remove Duplex Development**
- **Reduce Brant Street height, it is too tall for the area and not compatible with the existing downtown communities**
