

To Whom It May Concern,

We are the residents of Lorraine Crescent and McIntosh Place (the "Crescent"). We strongly oppose the implementation of sidewalks on the Crescent.

A number of the residents on the Crescent have resided here for many decades. To our knowledge, there have been no safety or accessibility concerns in that time. This is a quiet well-established neighbourhood with no "through traffic". The installation of sidewalks on the Crescent would not advance safety or accessibility.

Taxpayers dollars should not be spent on an unnecessary, unwanted project, which will significantly damage the trees and landscaping. The installation of sidewalks will also result in the loss of driveway parking spaces and will cause significantly more on-street parking.

We note that a pedestrian count was performed only on one day on May 30, 2018 from 7:30 a.m. until 9:30 a.m. and 2:30 p.m. until 4:30 p.m. As a result of this pedestrian count, the City believes that the installation of a sidewalk is warranted.

Contrary to this position, pedestrian count is not an accurate representation of the Crescent as a whole. In fact, it is clear that the count focused largely on the inappropriate stopping/parking near the catwalk on the north/east corner of Lorraine Crescent. It should be noted that the public parking lot is directly on the other side of the catwalk. The City should not be encouraging parents to drop their children off on the Crescent, only to let their children walk through a busy parking lot unsupervised.

In short, the installation of sidewalks is unnecessary and unwanted, and would seriously interfere with the residents' use and enjoyment of their property without improving safety or accessibility.

We the undersigned are in agreement with the above-noted statements. We sign this petition in opposition of the implementation of sidewalks on the Crescent.

Petition to Councillor Shawna Stolte, Ward 4, Burlington

Subject: We say "No" to Sidewalks on Strathcona Drive.

Dear Councillor Stolte.

We have heard that the City of Burlington plans to install sidewalks on Strathcona Drive as part of its 2019 Roadways Capital Project "Strathcona Dr. Area RD-RL-1548".

- Installing these sidewalks would mean that much of our street-side personal landscaping and some of our hedges and trees will be removed;
- it would also include the removal of the lower parts of our driveways, which will mean that some of us may not have enough off-street parking;
- we see no need for sidewalks on Strathcona;
- we feel that installing unwanted and unnecessary sidewalks would be a poor investment of our tax dollars; and
- we have not been consulted about this proposed change.

For these reasons, we, the undersigned residents of Burlington Ward 4, urge you to work in the best interests of the local community and do everything in your power to remove the new sidewalks from this part of the Roadways Capital Project plan.

PETITION

To those responsible for deciding on maintaining roads and sidewalks in the CITY OF BURLINGTON (in Ontario):

We, the undersigned (residents of Strathcona Gardens), **DO NOT** want sidewalks installed. Please STOP construction of sidewalks in **Strathcona Gardens** (Burlington Ontario Canada) in the near and distant future.

Current proposed sidewalks include: **Strathcona Drive, Apple Valley Lane, and Lorraine Crescent**

To Whom It May Concern,

We are the residents of Lorraine Crescent and McIntosh Place (the "Crescent"). We strongly oppose the implementation of sidewalks on the Crescent.

A number of the residents on the Crescent have resided here for many decades. To our knowledge, there have been no safety or accessibility concerns in that time. This is a quiet well-established neighbourhood with no "through traffic". The installation of sidewalks on the Crescent would not advance safety or accessibility.

Taxpayers dollars should not be spent on an unnecessary, unwanted project, which will significantly damage the trees and landscaping. The installation of sidewalks will also result in the loss of driveway parking spaces and will cause significantly more on-street parking.

We note that a pedestrian count was performed only on one day on May 30, 2018 from 7:30 a.m. until 9:30 a.m. and 2:30 p.m. until 4:30 p.m. As a result of this pedestrian count, the City believes that the installation of a sidewalk is warranted.

Contrary to this position, pedestrian count is not an accurate representation of the Crescent as a whole. In fact, it is clear that the count focused largely on the inappropriate stopping/parking near the catwalk on the north/east corner of Lorraine Crescent. It should be noted that the public parking lot is directly on the other side of the catwalk. The City should not be encouraging parents to drop their children off on the Crescent, only to let their children walk through a busy parking lot unsupervised.

In short, the installation of sidewalks is unnecessary and unwanted, and would seriously interfere with the residents' use and enjoyment of their property without improving safety or accessibility.

We the undersigned are in agreement with the above-noted statements. We sign this petition in opposition of the implementation of sidewalks on the Crescent.

Petition to Councillor Shawna Stolte, Ward 4, Burlington

Subject: We say "No" to Sidewalks on Strathcona Drive.

Dear Councillor Stolte.

We have heard that the City of Burlington plans to install sidewalks on Strathcona Drive as part of its 2019 Roadways Capital Project "Strathcona Dr. Area RD-RL-1548".

- Installing these sidewalks would mean that much of our street-side personal landscaping and some of our hedges and trees will be removed;
- it would also include the removal of the lower parts of our driveways, which will mean that some of us may not have enough off-street parking;
- we see no need for sidewalks on Strathcona;
- we feel that installing unwanted and unnecessary sidewalks would be a poor investment of our tax dollars; and
- we have not been consulted about this proposed change.

For these reasons, we, the undersigned residents of Burlington Ward 4, urge you to work in the best interests of the local community and do everything in your power to remove the new sidewalks from this part of the Roadways Capital Project plan.

[Petition opposing Sidewalks on Strathcona 2.pdf](#)

Dear City Council.

Attached please find a pdf of the twelve pages of our Petition entitled: **We say “No” to Sidewalks on Strathcona Drive**. The 56 signatures were collected by J.H. Weller, J.M. Cooke and P.C. Doyle from fellow residents in the Strathcona Drive area.

We understand from Councillor Stolte's assistant Georgie Gartside that submitting this petition to Bob Jurk by Monday March 4th [tomorrow] will allow our Petition to be included as an appendix to the staff report.

I address this email and attachment to members of City Council and to Bob Jurk. We will deliver the physical pages of the Petition to City Hall tomorrow morning.

Thank you for your help with this matter and for all you do for the residents of our city.

Yours sincerely

J.H. Weller
4062 Lorraine Crescent
Burlington

Petition to be submitted to the City of Burlington

Date: 2019-02-27

PURPOSE OF PETITION: **We say "No" to Sidewalks on Strathcona Drive.**

We, the undersigned residents of Burlington, do not agree with our City's plan to install sidewalks on Strathcona Drive.

- The roads are wide enough there is not a problem for walkers in this 40 km zone;
- the presence of walkers and the absence of sidewalks has a calming effect on drivers;
- we would lose the lower parts of our driveways, meaning some of us may not have enough off-street parking;
- we would lose much of our street-side landscaping and some hedges and trees; and
- unwanted and unnecessary sidewalks would be a poor investment of our tax dollars.
