Subject: Some Considerations for Council

Dear Ms Palermo

I am the newly appointed president of the LaSalle Park Marina Association. I sent these brief thoughts to Doug Pladsen regarding the acquisition of the floating wave-break. He suggested I forward them to you and ask that they be sent to the councilors before the Committee of the Whole meets Monday night. I do not want to take time from the meeting.

From LPMA

1. We at LPMA are grateful for the work to date,
2. that we are prepared to operate the marina on the City's behalf and continue with the license negotiations,
3. that if they order the wave-break now it will create certainty in the boating community during the next months that will help to maintain the rise in occupancy we have experienced, and
4. whatever your ultimate decision about who operates the marina, having the wave-break asset on order will give the City a powerful bargaining position in those negotiations.

Please forward this e-mail to the councilors

Thank you

Lorn Newton
