

City of Burlington Community Survey 2019

Final Report

Presented by: MDB Insight

Date: January 2020

The purpose of the 2019 Community Survey was to:

- Measure resident opinions about the City's service delivery
 - Guide future actions and decisions of the City of Burlington
 - Monitor progress since the 2015 Community Survey
 - Learn opinions about transportation options in Burlington
 - Identify preferences regarding communications from and involvement with the City
-

The survey used the following methods

- The survey was conducted using Computer Aided Telephone Interviews (CATI)
- Respondents were randomly selected from the city's population using a mix of landlines and cell phone numbers
- Numbers were dialed between 5:00pm and 8:30pm, November 4th to December 10th
- We reached a total of 757 completed interviews, each taking approximately 18 minutes
- The margin of error was +/- 3.6% with a 95% confidence interval

Computer Assisted Telephone Interviewing

- Survey questions are programmed into an online VOXCO environment
- The program randomly selects the next dialing number from the full list of respondents
- Interviewers are shown each question on their computer along with the possible response fields
- Recorded responses are input directly into the database upon entry
