- CM-3-18 Details on Risks 8-10 (from CM-16-16)
- CM-4-18 ERM Policy Review

Strategy/process

Report CM-3-18 provided Council with an overview of the process that would be used for the city's ERM Risk Register Development. This process was followed with the addition of also interviewing all members of council as requested by Audit Committee. This included 30-minute confidential interviews with members of BLT and a risk workshop to come to a consensus on the top ten risks. Time was also spent to identify probability, impact and present and future mitigation.

The Burlington Leadership Team's finalized ERM Risk registry can be found in Appendix A. A new addition this year is our ability to track ERM trends as we have more than one year of ERM data. We have also included previous mitigation as well as present or future mitigation.

As requested by Audit Committee a list of all of the Burlington Leadership Team's identified risks can be found in Appendix B.

A list of all of Council's identified risks can be found in Appendix C. This was developed based on 30-minute confidential interviews with each member of Burlington City Council.

In addition, this year we plan on presenting the finalized ERM Register to Managers and Supervisors by attending Department meetings in Q4 2018 and Q1 2019.

Financial Matters:

Not applicable at this time.

Connections:

Enterprise Risk Management is an integral component of the work of the Burlington Leadership Team and is a focus of the corporation.

Public Engagement Matters:

This report is on a public agenda for any member of the public who wish to learn about the city's Enterprise Risk Management program and our 2018 risk register.

Conclusion:

The report provides Audit Committee with the city's 2018 Enterprise Risk Management Risk register.

Respectfully submitted,

Leah Bisutti
