 - Concerns about potential environmental and ground contamination.
 - Concerns about truck traffic speed limit and dangerous maneuvering/turning on Zelco Drive.

Update on the Application Process

- At this time, we are seeking more time to work with the applicants in order to finalize outstanding technical matters, including the required number of loading spaces and their location on the subject lands.
- The applicant is requesting a reduction in the required number of loading spaces to 1 space and has provided a revised concept plan to better depict the parking and loading space layout.
