**Re: Housing Strategy Work Plan**

---

In recent dialogue with Planning staff regarding the Housing Strategy report being presented at CPRMC on January 14<sup>th</sup>, it has become clear that we should include dialogue and collaborations with all levels of government in the workplan. Staff has agreed with this notion.

Hence, I am bringing the following staff direction to committee for consideration:

Direct the Director of Community Planning in developing the draft Engagement Plan for the Housing Strategy, to include collaboration with all levels of government with a role in housing.

Thanks to my colleagues and Planning staff for their consideration.

Paul Sharman, Ward 5 Councillor
