

TS-04-16
File no. 745
CCS July 11 2016

Unfortunately I now have to have emergency dental work done today. Thus I will not be able to attend tonight's meeting as a delegate.

You may read out my position about on street parking.

As a resident in the Orchard with a single driveway, I support the continuation of on street parking. I have two adult sons living at home who both have cars. Even using my garage, it's necessary many times to park a car on the street. I would be willing to purchase on street parking permits, as has been done in the City of Toronto for many years. The parking of cars on a street I do not feel hinders traffic flow, as it is only allowed on one side. If anything it slows traffic down to an appropriate speed, especially on a feeder street such as mine, Blue Spruce Avenue.

Thanks

Lynne Shields
