Subject: Roseland Character Study

Dear Lisa,

I strongly urge Staff and Council to afford Roseland the same protection against driveways fronting on two streets as the Shoreacres community.

There is ample street parking and it detracts from the open space. It also at times threatens nearby trees either through removal or affecting their root systems. It allows homeowners to park the types of vehicles they may not want in front of their own properties, such as trailers, contractor vehicles, etc.

Thank you.

Diane Gaudaur
