

Appendix B to Report EICS-01-22

Website Design - Better Homes Burlington (samples of website design elements)

Note that the website has not yet launched but is intended to support a one stop shop for Burlington residents to learn about opportunities to improve the energy efficiency of their homes, including programs offered by utilities and senior levels of government. It is also envisioned to include information about programs to help improve resiliency of homes, such as basement flooding mitigation.

Discover the opportunity.

**Burlington's guide to creating a more
comfortable and climate-friendly home.**

Learn How

Upgrade your home comfort, value, and efficiency. Make your home better.

Better Homes Burlington is here to help Burlington, Ontario homeowners navigate home upgrades from start to finish.

As a Burlington resident, you have access to programs and incentives to save money and upgrade your home.
