# 1. This is necessary

The existing housing stock accounts for over 20% of Burlington GHGs.

## 2. This aligns with best practices

Burlington has the opportunity to build on the lessons of others.

# 3. This meets community expectations

- 383 surveys responses
- Dozens of one-on-one interviews

# 4. This offers the biggest bang for our buck

Extensive cost benefit analysis  
compared impact and price.

# 5. This does not duplicate existing programs

Complementing programs  
instead of duplicating.

# 5 Things You Need to Know

1. This is necessary
2. This meets community expectations
3. This aligns with best practices
4. This offers the biggest bang for our buck
5. This does not duplicate existing programs
