

# Monitoring Termination of Declaration of Emergency Criteria as of March 1, 2022

		Yes/No
	The epidemiological link between contact tracing and the rate of community spread % is <b>steadily declining</b> over a sustained period of 14 days. Source: Halton Region Dashboard Trends – Moving Weekly Incidence Rate per 100,000; New cases 7-day average; New cases reached within one day (a sign of contact management keeping up with new cases) <i>NOTE: given the Provincial changes to testing and Public Health constraints on contact tracing, the relevance of this criterion has been significantly reduced.</i>	N/A
	Has the Region and/or neighboring lower tier and upper tier municipalities <b>terminated declaration</b> of emergency? Source: Provincial Emergency Operations Centre (PEOC) - Daily Consolidated Situation Report (DCSR) – Annex I for Region of Halton municipalities	No
	Have other like municipalities <b>terminated declaration</b> of emergency? Source: PEOC-DCSR – Annex I	Yes
	Does the decision to terminate the declaration <b>directly impact temporary by-laws</b> in place to protect community and staff? Source: Mask By-law 006-2021 and Physical Distancing By-law 007-2021	No
	Do <b>services remain altered/suspended</b> ? Source: Service re-design	Yes
	Is there <b>affirmation of urgency</b> ? Refer to Ontario Ministry of Health and Region Public Health for Guidance. Source: Regional Medical Officer of Health Advisement	No
