Good Morning,

I know you are meeting tomorrow to discuss the new 30 plus storey project. The fact that this is even being considered is absurd. My partner and I love Burlington and we both understand that we have to evolve. However destroying the waterfront with enormous buildings is a complete disaster, not only to the beautiful landscape but the wildlife itself. The traffic that this will cause on Lakeshore is also an extreme disadvantage. We believe it will have a negative impact on the lifestyle of our current residents as well as new ones considering moving in.

We are very concerned citizens and vote against this project all together.

Thank you for your time,  
Scott
