Subject: La Salle Park Marina Association (LPMA)

Good afternoon Councillor Stolte,

As you may be aware, the LPMA was recently dropped by their insurance carrier at a very late point in time relative to the season beginning. It has been impossible for the LPMA and their representatives to find an alternate insurer and as a boat owning member of Burlington Sailing and Boating Club and a paid slip renter with the LPMA we would greatly appreciate your support for the city to take on the management of the marina and the insurance coverage for the marina. This would allow the boats to be launched (currently stored in the parking lot) and the boating public to have access to the launch ramp at La Salle Park.

Additionally without the insurance coverage the AbleSail Program is unable to operate out of the community marina, this would be a shame for those sailors who look forward to the freedom provided through this excellent organization. Given the significant investment the city has made into the marina it would be a shame to see it left empty for the season.

Please vote to support the city taking over the management of the marina and the insuring of the entity.

Thank you for your time and commitment to make Burlington one of the best places to live.

Mark Quinn
