I am totally against any taxpayer money being used to help LaSalle Marina operate.

Enough taxpayer dollars taken from Reserve Funds have already been spent.

LaSalle Marina needs to be able to support itself. There are many questions - How many Burlington residents use the Marina? According to their website below is what is being offered.

I would also like to know how many people participate in the events being offered, especially the junior/adult sailing programs? What does it mean when for these sailing programs it indicates "Club Owned Boats"?

I would appreciate getting this information.
