

SAFE STREETS HALTON

Who are we?

We are a group of individuals dedicated to eliminating all traffic related injuries and deaths in Halton Region, and making it safer and easier for residents to use sustainable and active modes of transportation.

The logo consists of the words "SAFE", "STREETS", and "HALTON" stacked vertically in a white, bold, serif font. The text is centered within a solid green rectangular background.

**SAFE
STREETS
HALTON**

Where we're at

Since launching before the 2022 Election period, we have:

- Increased awareness of our cause to candidates and the public through presence at events and online advertising
- Surveyed Halton MPP candidates for their views on transportation and street safety
- Reviewed the platforms of the top four political parties

Where we want to be

Safe Streets Halton was created to be a resource for residents and business owners who want to make our region safer and more welcoming of all road users. We will:

- Offer resources such as articles, books, videos, and webinars to the public
- Facilitate citizen-led urban interventions such as Tactical Urbanism
- Act as a collective voice for those who want to see Vision Zero achieved in Halton Region.
- Offer support to residents in their personal active transportation / Vision Zero initiatives

Moon in June

We would like the opportunity to share the cycling advisory committee's table at Moon in June this Saturday to increase public awareness of solutions to dangerous streets and of Safe Streets Halton by:

- Conversing with those who approach the table
- Handing out flyers/pamphlets on vision zero practices, and how citizens can get involved

Beyond

We would like to form a relationship with Burlington's Cycling Advisory Committee and work together on events and awareness campaigns.

Thank you

Appendix

What we'd bring to the table:

- Sign with Safe Streets Halton logo / branding
- flyers/brochures to hand out to the public
- If needed, a fold-up chair

Flyer/brochure content:

- Examples of tactical urbanism
- Short explanations on Vision Zero concepts
- City resources the committee would like included (e.g. bike month events)
- Safe Streets Halton contact information and mission statement
