Designing Complete Communities for the Future of Burlington
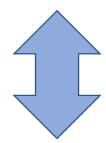

Complete Communities as defined by A Place to Grow; Growth Plan for the Greater Golden Horseshow

"Places such as mixed-use neighbourhoods or other areas within cities, towns, and settlement areas that offer and support opportunities for people of all ages and abilities to conveniently access most of the necessities for daily living, including an appropriate mix of jobs, local stores, and services, a full range of housing, transportation options and public service facilities. Complete communities are age-friendly and may take different shapes and forms appropriate to their contexts"

Expanding and Evolving the Complete Communities Perspective

Designing Complete Communities represents both a significant strategy opportunity and threat to the future of City.

CITY OF **Burlington**

VISION 2040
Where people, nature and business thrive in **Complete Communities**

Strategic Directions

| A City that Grows | A City that Moves | A Healthy and Greener City | An Engaging City |

Vision to Focus 2.0
Enabling Pillars

| Increasing Economic Prosperity and Community Responsive Growth Management | Improving Integrated City Mobility | Supporting Sustainable Infrastructure and a Resilient Environment | Building More Citizen Engagement, Community Health and Culture | Delivering Customer Centric Services with a Focus on Efficiency and Technology Transformation |

The Corporate rolling work plan
Including actions that will achieve **Complete Communities**

Today's Workshop
To explore opportunities

✓ Shaping the organization's strategic directions and focus areas

✓ Transforming related decision-making processes to achieve the provincial housing pledge and the anticipated population growth

✓ Designing Complete Communities, a comprehensive and holistic approach for the City

✓ Inspiring the community, Council, and staff about the future of Burlington

Final Thoughts and Input via a Lightening Round

1. What are some of the important elements of the "designing complete communities" initiative, that you would like to explore as part of future workshops?

2. What do you think will stand in our way and challenge us to achieve this initiative?

3. Provide 3-5 words that come to your mind to describe this initiative – First word is a verb to describe an action

Setting the Context for Designing Complete Communities

Dr. Michael Moffatt

Senior Director of Policy and Innovation at the Smart Prosperity Institute and an Assistant Professor in the Business, Economics and Public Policy group at Ivey Business School, Western University

Placemaking Today and Strategies for Designing Complete Communities

Scott Pickles

Principal & Senior Vice President, Canada Consulting Leader at Avison Young Global
