

Final list of proposed Sustainable Development Goal indicators

Sustainable Development Goal indicators should be disaggregated, where relevant, by income, sex, age, race, ethnicity, migratory status, disability and geographic location, or other characteristics, in accordance with the Fundamental Principles of Official Statistics (General Assembly resolution 68/261).

Goal	Description	Strategic Plan	SDC Policies & Objectives	Other Areas
1	End poverty in all its forms everywhere	A City that Grows An Engaging City	Principles: 5 Objectives: O, Q and R	
2	End hunger, achieve food security and improved nutrition and promote sustainable agriculture	A City that Grows A City that moves A Healthy and Greener City	Principles: 1 and 5 Objectives: C, F, J and O	
3	Ensure healthy lives and promote well-being for all at all ages	A Healthy and Greener City	Principles: 1, 2, 4 and 5 Objectives: P	
4	Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all	A City that Grows	Principles: 3 and 5 Objectives: D and J	Education is controlled by the province and run by regional school boards. Adult and continuing education programs are also available through the boards. Both elementary and secondary school boards are free to residents in the city.
5	Achieve gender equality and empower all women and girls	A City that Grows An Engaging City	Principles: 5 Objectives: H and I	City of Burlington Corporate Access and Equity policy (1.2.14 burlington.ca)

6	Ensure availability and sustainable management of water and sanitation for all	A Healthy and Greener City	Principles: 1 and 3 Objectives: B, C, D and M	Halton Region is responsible for water quality, protection and treatment of Burlington's drinking water.
7	Ensure access to affordable, reliable, sustainable and modern energy for all	A City that Grows A Healthy and Greener City An Engaging City	Principles: 2 and 3 Objectives: A and N	
8	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	A City that Grows	N / A	
9	Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation	A City that Grows A City that Moves	Principles: 2, 3 and 4 Objectives: R and L	
10	Reduce inequality within and among countries	A City that Grows	Principles: All Objectives: A, J, K and I	
11	Make cities and human settlements inclusive, safe, resilient and sustainable	A City that Grows	Principles: All Objectives: All	
12	Ensure sustainable consumption and production patterns	A City that Grows A Healthy and Greener City	Principles: 1, 3 and 4 Objectives: D, E, N and O	Halton Region Solid Waste Management Strategy
13	Take urgent action to combat climate change and its impacts	A City that Moves A Healthy and Greener City	Principles: 1, 2 and 3 Objectives: A, D, K, M, N and O	Climate Action Plan Climate Adaptation Plan Partnership efforts with Burlington Green

14	Conserve and sustainably use the oceans, seas and marine resources for sustainable development	N/A	Principles: All Objectives A , B, C, D and M	2020 Updated Stormwater Plan Halton Region Wastewater Guide for Residents
15	Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss	A Healthy and Greener City	Principles: 1, 2, 3 and 4 Objectives: ??	
16	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels	An Engaging City	N/A	
17	Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development Finance	N/A	N/A	

Lynn's comments

I think the strategic plan directions could be stronger to support this SDG - for consideration in next edition. Although the Region is the lead on social services, there are actions that the City can take to help to eradicate poverty..

Again, I think the strat plan directions could be stronger - nothing really in the strat plan about supporting sustainable agriculture (this did come up in Climate Resilient Burlington). Strongest link is under Healthy & Greener City - 'residents grow their own fresh and healthy food. I would recommend in the future that it be re-worded: 'Residents have opportunities to grow their own fresh and healthy food' recognizing that many people living in multi res buildings have limited opportunity with the exception of community gardens.

Strong links here to Strat plan under Healthy and Greener City.

Could improve strat plan link - the city does partner with school boards and we're working to bring Brock University to Burlington. For P&Os, I would add q

Could the strat plan be stronger in this area? Being inclusive & diverse doesn't always mean gender equality.

<p>Agree that the Region is the lead here on treatment and distribution and ww collection, but we could include wording related to source water protection - we all have a responsibility to ensure our water sources are kept clean (source water protection)</p>
<p>I don't see the link in 'A City that Grows'. And it should be stronger in Healthy and Greener City, although it could be implied given that we are working towards being net carbon neutral. However, energy poverty is an issue. Next edition of strat plan could be strengthened.</p>
<p>I think you could make the point that there is a link to the 5th principle.</p>
<p>Suggest including P5 and h objective</p>
<p>Similar comment to SDG #5 - could strengthen wording related to equity, opportunities.</p>
<p>no comments here</p>
<p>no comments here</p>
<p>I would add A City that Grows for link to Strat Plan. Other plans to note: new Official Plan (there is a section dedicated to climate change); the Integrated Mobility Plan; and the Corporate Energy & Emissions Management Plan. For P&Os, would suggest adding j and l</p>

Some connection to A Healthy & Greener City. Ok... we're not close to a 'sea' but would argue that the Great Lakes are fairly significant. We have objectives for a healthy, natural heritage system (which would include waterways); a clean, safe and useable waterfront; and leadership in SW management and low impact development. However, similar comment to SDG #6 about keeping water resources clean and healthy for future Strat Plan.

Consider objectives b, c, f

Could also include A City that Grows - 'Burlington as an inclusive and diverse city and employer'. For P&Os, suggest P5 and a
