Jo-Anne Rudy and Mallory Greenough
Burlington City Hall
462 Brant St.
Burlington Ontario L7R 3Z6

To Who It May Concern:

I am a very concerned resident of Burlington regarding Nelson Quarry and their impact on our future. I live in the immediate area of Nelson Quarry, close enough to see and hear the daily destruction of the existing Quarry and the natural surroundings in its vicinity for the last fifty plus years. Ten years ago I was told that the next 5 to 7 years the existing quarry will be closing. In the last few years they have been working on an extension. Nelson Quarry will destroy what we the residents of Burlington treasure the most - NATURE. Thousands of various types of trees, bushes and grasses, not to mention the various types of animals that will be directly affected by the loss of these trees. And just as important as the loss of nature our water supply will be greatly affected along with the air and noise quality plus the danger of flying debris. We are greatly concerned that it will greatly impact well water and the massive taking of water from the aquifer. The impacts of the blasting and the dangers of flying rocks and the incessant noise from the blasting and the 500-700 trucks daily moving the materials already greatly disrupted not only the nature around the quarry but our every day lives. This will only get significantly worse.

We desperately need your help from city officials. We voted for you and have faith that you will do the right thing and sincerely hope that you will help us stop Nelson Quarry from progressing any further.

Sincerely yours,

Tibor Terecik
