The City of Burlington raised property taxes by 7.52% in 2023. They are planning another unprecedented increase of 7.82% for 2024. Do you support a tax increase this high? This is open to City of Burlington residents only. If you are outside of Brant Hills and it won't let you participate, pls let me know, I maybe set it up wrong. All responses See more...

What do Burlington residents support for the 2024 property tax hike? The city has proposed 7.82% (after a 7.52% increase this year). I'm writing an online petition and want it to reflect what citizens want. Votes are anonymous even to me. Thank you for participating in such an important issue that affects us all
