Parking for Multi-Unit Business

Parks

To Committee of the Whole,

Safe Streets Halton would like to express our support for the city-initiated amendments to Zoning By-Law 2020, “parking for multi-unit business parks”. This amendment further incentivises active transportation, transit-oriented development, as well as removes red-tape for local businesses.

We hope to see further reduction in parking standards, and look forward to the implementation of the pilot detailed in the city’s Housing Accelerator Fund Action Plan.
