Good Afternoon,

Please note that it has come to my attention that additional comments may be required. However, my original comments still stand: a building permit should be obtained retroactively for the construction that was completed without the benefit of a permit.

An additional comment that may need to be included is as follows:

“Designer to ensure that required handrails are provided for all exterior stairs with more than three risers, in accordance with OBC Div. B, 9.8.7.1.”

Regards,

Alexander Kuzmichuk
